

BRAVAD FREESTANDING KITCHEN

DESIGN:

Mikael Warnhammar

MATERIALS:

Solid oak, oak veneer and stainless steel. Door/drawer fronts in white painted fibreboard with integrated handles and legs in aluminium.

FINISH:

The units are clear lacquered and the countertops have been treated with oil for a more hard-wearing and durable surface.

CARE & MAINTENANCE:

The countertops have been factory-treated with one coat of oil. Treating countertops with BEHANDLA wood treatment oil 3-5 times a year preserves the durable surface for many years. Clean stainless steel surfaces after use by wiping with a sponge and clean cloth, adding a little dishwashing detergent if necessary. Always wipe lengthways.

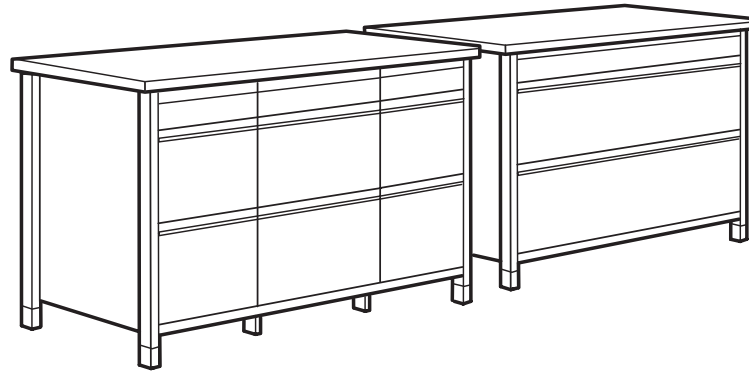

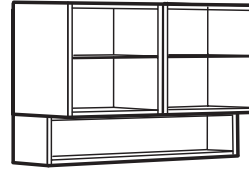

This symbol means you have a limited 10-year quality and durability warranty on your IKEA kitchen. Read more in the warranty brochure.

ENVIRONMENTAL INFORMATION:

BRAVAD is made of solid wood. This is a good material both from the point of view of quality and with regard to the environment. Wood is a renewable resource. It is also recyclable and bio-degradable. None of our solid wood products are made from timber taken from intact natural forests.

SPECIAL ASSEMBLY INFORMATION:

To prevent toppling, all cabinets should be anchored to the wall or the floor.

BRAVAD freestanding kitchen is a fast and simple way to a flexible kitchen. Three complete, all-in-one units are all you need to cover your basic kitchen needs: cooking, washing up and storing. The freestanding units are just like any other piece of furniture – easy to plan for and easy to buy. They're also easy to arrange in the room. And just as easy to move when you want to rearrange the room, or to take with you if you move house. Smart. And easy!

Cabinets in BRAVAD freestanding kitchen have smooth-running drawers that you can open all the way. That gives you an overview of what's inside and means you won't have to stretch to reach things right at the back. All drawers have an inbuilt damper to ensure that they close slowly, quietly and softly. The drawers are made of hardwearing wood with a bottom of scratch-resistant white melamine. Quality through and through, in other words.

The all-in-one units in BRAVAD freestanding kitchen are made of hardwearing solid oak and horizontal oak veneer. White-lacquered drawer fronts with integrated aluminium handles serve to reinforce the clean, contemporary design. Even the oiled countertops are solid oak and measure a full 26" (67 cm) deep. That gives you a work surface that's both generous and robust. If you want to make use of the walls, you can complement with wall cabinets and/or open wall shelves. You can even use extra shelves to make use of the space between base cabinets. What freedom!

WHY BRAVAD?

Drawers that pull out further. Fully extending drawers give you more usable space and easier access to everything stored inside. That makes preparing food much simpler.

Make full use of corners to maximise storage and work space. The corner base cabinet has smooth-running, fully extending drawers for easy access to all you need – all the way to the back.

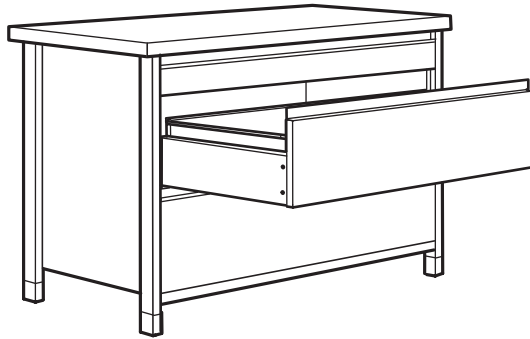

Organise the contents in deep drawers exactly as you wish with adjustable dividers. It's the simple way to make the best possible use of your drawer space – and it makes kitchen work simpler, too.

An attractive, durable, white back panel makes base cabinets ideal in an island kitchen. More work space for preparing food and more storage space for your utensils. Simply remember to secure the cabinet to the floor.

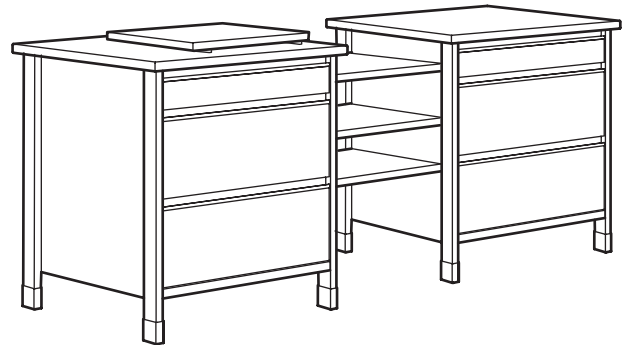

The sink cabinet is designed to hold a fully-integrated dishwasher on either the right or left-hand side, depending on where you choose to place the reversible sink. There is no predrilled hole so you can place your faucet where it suits you best.

BRAVAD SOLUTIONS

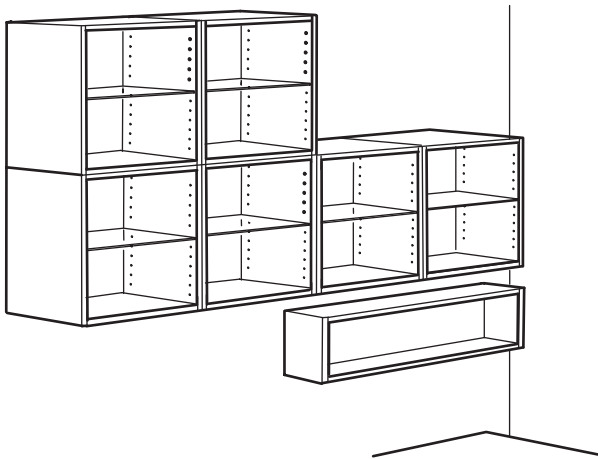

Hidden feature slows it down. All drawers in BRAVAD free-standing kitchen are equipped with inbuilt dampers to cushion the closing action and to ensure that the drawer closes slowly, softly and quietly – regardless of how much force you use, or what you have inside. Beauty comes from within, they say. It's so true.

Base cabinet 52x35" (132x90 cm) \$529

Use the space between cabinets. Mount BRAVAD shelves between the base cabinets and what you get is practical storage for the things you want within easy reach. And the top shelf can also serve as an extra work surface. Or as a stable chopping board if you choose to use it loose on the counter.

This combination \$937

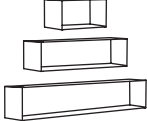

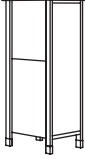

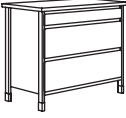

Combine as you like. We made the wall shelves and wall cabinet in the BRAVAD series in sizes that allow you to customise your very own wall solution. The look is open and airy. And a good tip is to mount a wall shelf a bit below the wall cabinet – that gives you an extra shelf into the bargain.

This combination \$340

BRAVAD ALL THE PARTS, SIZES AND PRICES

All cabinets have smooth-running, fully extending drawers with drawer stops and integral drawer dampers to cushion the closing action and close drawers quietly and gently. Adjustable legs stand steady on uneven surfaces too. Appliances sold separately.
Width x Depth x Height.
