

RATIONELL INTERIOR FITTINGS

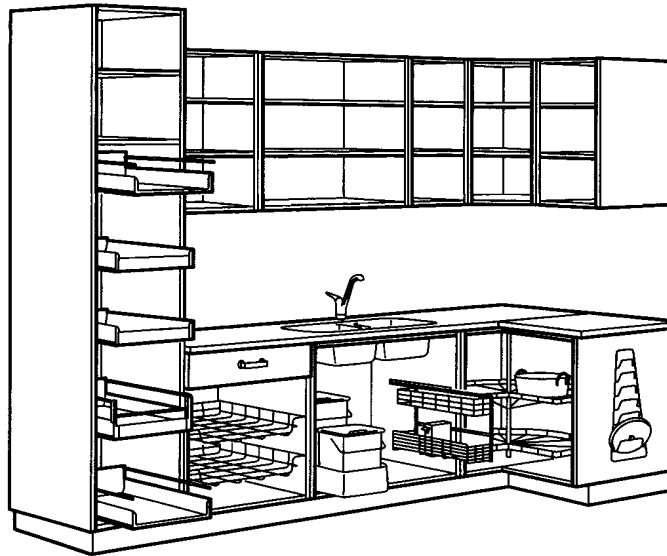

QUALITY TESTING:

All kitchen drawers extend fully to give you a clear view of all the contents. We load 24" wide drawers with a weight of 18 lbs (8.2 kg), and then open and close them 80,000 times. The average set of domestic cutlery weighs around 9 lbs (4 kg).

Our 30" wide shelves are built to support an evenly distributed load of at least 60 lbs (27 kg) without sagging. This is the weight of around 60 dinner plates – far more than you'll find in the average household.

To meet IKEA standards, 24" wide wire baskets must support up to 38 lbs (17 kg). This is the same as around a dozen 3-litre pans – more than you can physically fit into the basket.

In one of our tests we open and close the pull-out pantry 80,000 times. Each drawer is loaded with a 44 lbs (20 kg) weight.

A place for everything and everything in its place. The basis for our development of RATIONELL interior fittings is accessibility and typical movement patterns in the kitchen. Then we subject our ideas and products to the toughest test of all – real life!

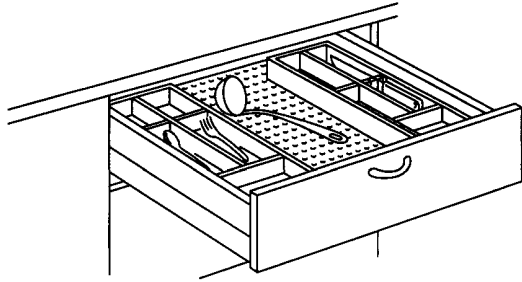

RATIONELL is the name for all those practical interior fittings that provide smart, simple solutions for how to make kitchen work simpler. They make it easier to see at a glance everything that's stored behind closed doors or in drawers. It's worth bearing in mind when planning your kitchen that it's details like this that make a big difference.

The first thing you will notice is how RATIONELL saves space and makes full use of every available inch. Then you'll probably discover that utensils, crockery and cookware are so much easier to find and get to. That makes your kitchen a more efficient, less taxing place to work. Pull-out baskets and waste-sorting units, corner carousels and fully extending drawers in base cabinets and high cabinets all help to save you time and energy and eliminate unnecessary stretching and bending during regular, day-to-day kitchen chores.

The following pages contain several good ideas and the complete series of RATIONELL products – some of them specially developed for AKURUM cabinets. And the last page contains some smart solutions to make work easier in other kitchens, as well.

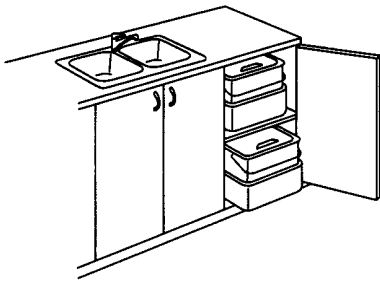

RATIONELL COMBINATIONS

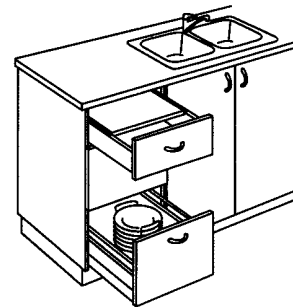

Fill the drawer fully or partially! With one or more cutlery trays you can bring order to every kitchen drawer. Choose, for example, one with a divider to keep knives separate. The dividers are movable. You can also use RATIONELL drawer mat between cutlery trays to protect your kitchen utensils and your drawer. **This combination of cutlery trays \$11.98**

MAKE FULL USE OF KITCHEN DRAWERS WITH THE RIGHT NUMBER OF INSERTS

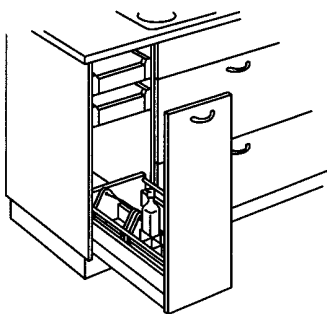

RATIONELL DRWR WIDTH	ARTICLE NUMBER	QUANTITY	THIS COMBINATION
12"	500.761.77	1	\$7.99
15"	300.761.78	1	\$10.98
	700.761.76	1

24"	300.761.78	2	\$21.97
	500.761.77	1	

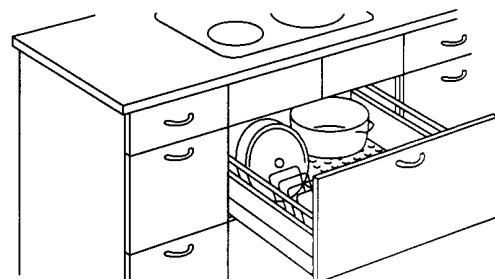

Waste-sorting without the hassle. The solution is four 3 gallon (11-litre) containers placed in pairs on two sturdy trays that glide in and out on fully-extending runners for easy accessibility close to the sink. **This combination \$27.94**

Two clever kitchen ideas. A chopping board that rests on the side rails of the drawer when not in use, handy to be lifted to the worktop when needed. An adjustable plate holder that fits into a deep drawer. Just pick it up and transfer it to the table at meal times. It certainly beats stretching awkwardly on tiptoe to reach into wall cabinets. Available in two sizes. **Chopping board \$9.99 Large plate holder \$9.99**

Handy close to the cooktop. These 3 fully-extending drawers fit a 12" cabinet. The shallow drawers can hold, for example, a wide beech cutlery tray. The deep drawer is ideal for oils, sauces etc. that you need for cooking, neatly stored in RATIONELL boxes with handles, sold separately. **Fully extending drawers 3-pack \$65**

Pot lids within easy reach. A pot lid rack keeps lids visible and easily accessible. Hang it on a wall or stand it in a deep drawer. You can move the dividers to suit the size of the lids. RATIONELL drawer mat helps keep the rack and your pans in place – and protects the drawer too. **Pot lid rack \$5.99**
